FORT WAYNE PHOTOGRAPHY CLUB

The Fort Wayne Photographers Club has been in existence for over 70 years. We have a membership of approximately 50 photographers. Our members range in skill from beginners to seasoned professionals. Our purpose is to learn, improve and enjoy the art of photography. We are a very diverse group of people overing all genres of photography, mostly capturing nature, street photography, landscape, portraits, sports and lifestyle. Our membership includes award winning photographers at local and national level.

Our photographers include a range of skills to create an image. Ranging from in camera composition and settings to elaborate post processing techniques. Some are purists that use only basic adjustments to the image form the camera and others will create elaborate images combining several images using software such as Photoshop, Lightroom, and other software to create intricate images.

The Way We See Things is on display from Feb. 14 through April 27, in Gallery 101, FW Campus. All are invited to join us in a reception to celebrate with our artists on Friday, February 21, 5-7 p.m.
