

Senior Art Exhibition - Jessica Klemm

Nature's Aesthetics

An art hobbyist is how I would describe my approach to art. When I sit down to create a piece, it isn't always the same medium. I draw, I paint, I create collages, I play with photography, graphic design, I don't have a favorite medium, they all are. The only thing that ties all of my work together would be the subject matter that is often portrayed – nature. I've always been drawn to the aesthetics of nature and aesthetics for me is everything. I believe something has to look pretty (a word with varied definitions) to evoke emotion. But nature's aesthetics evokes a level of emotion that is innate to being human; I hope that when my work is analyzed, the viewers will understand and feel the love of the aesthetics of nature.
