4. Please provide any additional information about the information provided above:

We did not have any teaching candidates in T2T or the master's degree program in 2022-23. In addition, there are several pathways to be admitted into the T2T program. If a candidate did not graduate with a 3.0 or higher GPA, there are alternative routes to be admitted.

## Supervised Clinical Experience

**Note:** The clinical experience requirements in this section are preloaded from the prior year's IPRC. Teacher preparation providers will enter the number of participants each year.

Provide the following information about supervised clinical experience in 2022-23. ([§205\(a\)\(1\)\(C\)\(iii\)](#), [§205\(a\)\(1\)\(C\)\(iv\)](#))

You have programs with the student teacher model, but "clock hours of supervised clinical experience required prior to student teaching" is 0. Please correct the data, or confirm.

**Please provide any additional information about or descriptions of the supervised clinical experiences:**

Traditionally the T2T candidates were placed in undergraduate courses held during the school day, and therefore, were able to participate in clinical experiences. However, in order to serve more candidates working full-time, as well as help fill the vacancies in teaching, the EPP now offers their T2T program all online, and therefore, does not require clinical experience in accordance with their courses. However, teacher candidates are trained in the pedagogy of teaching and during their student teaching phase (whether they are the teacher of record or not), candidates are evaluated by a member of the EPP.

# Enrollment and Program Completers

THIS PAGE INCLUDES:

>> [Enrollment and Program Completers](#)

In each of the following categories, provide the total number of individuals enrolled in teacher preparation programs for an initial teaching credential and the subset of individuals enrolled who also completed the program during the academic year.

# Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

- [Academic Major](#)

## Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2022-23.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

### [What are CIP Codes?](#)

No teachers prepared in academic year 2022-23

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

## Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2022-23. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

# Program Assurances

THIS PAGE INCLUDES:

>> [Program Assurances](#)

Respond to the following assurances. Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. ([§205\(a\)\(1\)\(A\)\(iii\)](#); [§206\(b\)](#))

## Program Assurances

**Note:** This section is preloaded from the prior year's IPRC.

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

- Yes  
 No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

- Yes  
 No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

- Yes  
 No  
 Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

- Yes  
 No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

- Yes  
 No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

- Yes  
 No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

- Yes  
 No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

Candidates in our T2T program take courses to prepare them for teaching students of diverse backgrounds. EDUC 411: The Diverse Adolescent Learner enables the classroom teacher to create an engaging classroom environment that considers all learners. It considers the unique needs of adolescent learners including exceptionalities, varying socioeconomic status, and new speakers of English. EDUC 413 Theories of Motivation and Engagement develops an understanding of the major concepts and theories related to the social, emotional, physical, cognitive, linguistic, and moral development of adolescent learners. EDUC 423: Developing an Equitable Classroom focuses on creating a classroom environment that considers the needs of all members of the learning community. It exams bias and hidden curriculum so that all learners are given equitable education. Additionally, we meet twice a year with our community stakeholders to receive input and guidance as we refine our program to meet the needs of our communities and

the learners in the area. The faculty in our unit works closely with the Indiana State Teachers Association, CAEP, Indiana Department of Education, Indiana Association for Colleges of Teacher Education, and the Association of Teacher Educators to stay abreast of what is current and needed in schools.

# Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

## Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. [\(S205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

## Low-Performing

1. Is your teacher preparation program currently approved or accredited?

- Yes
- No

If yes, please specify the organization(s) that approved or accredited your program:

- State
- CAEP
- AAQEP
- Other specify:

2. Is your teacher preparation program currently under a designation as "low-performing" by the state?

On this page, review the questions regarding your program's use of technology, and update as needed.

**Note:** This section is preloaded from the prior year's IPRC.

## Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. ([§205\(a\)\(1\)\(F\)](#))

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction

Yes

No

- b. use technology effectively to collect data to improve teaching and learning

Yes

No

- c. use technology effectively to manage data to improve teaching and learning

Yes

No

- d. use technology effectively to analyze data to improve teaching and learning

Yes

No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

Across the education classes, the integration of technology is modeled and expected. In the special education courses, various forms of assistive technology are explored. This assures preparation of teachers not only for the use of technology, but for its use pertaining to universal design for learning applications, too. In addition, we have a SMART interactive whiteboard in one of our education-designated classrooms and faculty frequently demonstrate 1:1 with the elementary education candidates. Faculty and candidates are learning to use the technology. All candidates are expected to integrate technology into lesson plans as appropriate for maximum engagement of their students. During the literacy course required of all majors, teacher candidates are required to modify one lesson plan in their unit as an e-learning lesson. All teacher candidates take Theories of Motivation and Engagement where they examine assessment data available to teachers and use statistical knowledge necessary to understand, analyze, and use that data for the purpose of planning future instruction. In addition, faculty often integrate some of these ideas into their own courses so students become more familiar and comfortable using different technology. Finally, most of the clinical experience placements are 1:1 or have a wide variety of technology infused in instruction. Since most school corporations are also turning to e-learning, we are exploring ways to integrate this pedagogy and curriculum design into the EPP's courses. The EPP requires an e-learning lesson as part of the unit plan. The EPP is taking steps to provide students with deeper knowledge and experience in integrating technology effectively.

# Teacher Training

THIS PAGE INCLUDES:

>> [Teacher Training](#)

Provide the following information about your teacher preparation program.

**(§205(a)(1)(G))**

**Note:** This section is preloaded from the prior year's IPRC.

## Teacher Training

### 1. Provide a description of the activities that prepare general education teachers to:

#### a. Teach students with disabilities effectively

The EPP requires all teaching candidates to take the foundational course in special education (The Diverse Adolescent Learner). As they develop curriculum throughout their teaching programs, they must adapt individual lessons to meet the needs of exceptional learners. Teaching candidates are evaluated in clinical experiences and student teaching on their ability to differentiate instruction. Student teachers must implement adaptations throughout their placements.

#### b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

This is an area the EPP recognizes as an area for improvement. T2T candidates are not licensed in special education, however, working with students with differing abilities is integrated into their coursework in all required courses. However, due to school corporations' policies and interpretation of the federal law regarding team members and confidentiality, there is not a consistent or planned opportunity to participate in IEP team meetings. The EPP is exploring training provided through videos or a virtual platform.

#### c. Effectively teach students who are limited English proficient.

The T2T program does not require a specific course on teaching students with limited English proficiency; however, it does integrate strategies for teaching students with limited English proficiency in the required disciplinary literacy course. This course requires teaching candidates to teach a lesson adapted to accommodate K-12 students with limited English proficiency. Additionally, the T2T teaching candidates complete a course in creating culturally responsive classrooms.

### 2. Does your program prepare special education teachers?

- Yes  
 No

If yes, provide a description of the activities that prepare *special education teachers* to:

#### a. Teach students with disabilities effectively

#### b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

c. Effectively teach students who are limited English proficient.
