List of Programs

List each program for an initial teaching credential below and indicate whether it is offered at the Undergraduate level (UG), Postgraduate level (PG), or both. (§205(a)(C))

THIS PAGE INCLUDES:

>> List of Programs

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

• Teacher Preparation Program

List of Programs

Note: This section is preloaded with the list of programs reported in the prior year's IPRC.

CIP Code	Teacher Preparation Programs	UG, PG, or Both	Update
13.121	Early Childhood Education	UG	
13.1202	Elementary Education	UG	
13.01	General Education (alternative programs/programs providing pedagogy only)	PG	
13.1	Special Education	UG	
13.1302	Teacher Education - Art	UG	
13.1322	Teacher Education - Biology	UG	
13.1323	Teacher Education - Chemistry	UG	
13.14	Teacher Education - English as a Second Language	UG	
13.1305	Teacher Education - English/Language Arts	UG	
13.1306	Teacher Education - Foreign Language	UG	
13.1307	Teacher Education - Health	UG	
13.1328	Teacher Education - History	UG	
13.1311	Teacher Education - Mathematics	UG	
13.1312	Teacher Education - Music	UG	
13.1314	Teacher Education - Physical Education and Coaching	UG	

Total number of teacher preparation programs:

Program Requirements

Check the elements required for admission (entry) into and completion (exit) from the program. If programs are offered at the undergraduate level and postgraduate level, complete the table for both types of programs. (§205(a)(1)(C)(i))

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- Full-time equivalent faculty supervising clinical experience
- Adjunct faculty supervising clinical experience
- Cooperating Teachers/PreK-12 Staff Supervising Clinical Experience
- Supervised clinical experience

THIS PAGE INCLUDES:

- >> <u>Undergraduate Requirements</u>
- >> Postgraduate Requirements
- >> Supervised Clinical Experience

Undergraduate Requirements

Note: This section is preloaded from the prior year's IPRC.

- 1. Are there initial teacher certification programs at the undergraduate level?
 - Yes
 - No

If yes, for each element listed below, indicate if it is required for admission into or exit from any of your teacher preparation program(s) at the undergraduate level. If no, leave the table below blank (or <u>clear responses already entered</u>) then click save at the bottom of the page.

4.	Please provide any additional information about the information provided above:		
	Starting with the Class of 2023, teacher candidates must submit a SAT or ACT score correlation between SAT score and licensure exams, the score is used for mentoring		

Starting with the Class of 2023, teacher candidates must submit a SAT or ACT score, but a minimum score is not required. Because there is a correlation between SAT score and licensure exams, the score is used for mentoring and helping them chose additional classes to support their growth. In addition, the minimum overall GPA required for the class of 2023 is 2.5; however, the EPP raised the minimum GPA in their required content courses and education courses to 2.75.

Postgraduate Requirements

Note: This section is preloaded from the prior year's IPRC.

1. Are there initial teacher certification programs at the postgraduate level?

If yes, for each element listed below, indicate if it is required for admission into or exit from any of your teacher preparation program(s) at the postgraduate level. If no, leave the table below blank (or <u>clear responses already entered</u>) then click save at the bottom of the page.

Please provide any additional information about the information provided above: While the EPP does have a Masters of Education approved by the state of Indiana, it program in 2021-22. We do, however, offer a Transition to Teaching Program as requ		not admitted anyone into the
upervised Clinical Experience		
ote: The clinical experience requirements in this section are preloaded from the prior year's irticipants each year.	IPRC. Teacher preparation provide	rs will enter the number of

Provide the following information about supervised clinical experience in 2021-22. (§205(a)(1)(C)(iii), §205(a)(1)(C)(iv))

Are there programs with student teaching models?

Yes No

If yes, provide the next two responses. If no, leave them blank.

Programs with student teaching models (most traditional programs)	
Number of clock hours of supervised clinical experience required prior to student teaching	150
Number of clock hours required for student teaching	400

Are there programs in which candidates are the teacher of record?

If yes, provide the next two responses. If no, leave them blank.

Programs in which candidates are the teacher of record in a classroom during the program (many alternative programs)			
Number of clock hours of supervised clinical experience required prior to teaching as the teacher of record in a classroom			
Years required of teaching as the teacher of record in a classroom			
All Programs			
Number of full-time equivalent faculty supervising clinical experience during this academic year (IHE staff)	2		
Optional tool for automatically calculating full-time equivalent faculty in the system			
Number of adjunct faculty supervising clinical experience during this academic year (IHE staff)	4		
Number of cooperating teachers/K-12 staff supervising clinical	34		

16

Please provide any additional information about or descriptions of the supervised clinical experiences:

Number of students in supervised clinical experience during this

academic year

From the first semester on campus, even prior to admission to the program, potential candidates complete clinical experience under the supervision of qualified clinical faculty. During the sophomore year in EDUC 246, guided, intentional clinical experience working with small groups of students provides candidates with feedback on their performance from clinical faculty and members of the EPP. This supervised clinical experience is deepened during the junior year when teacher candidates work all year with small groups of 3rd graders during RTI or offer large group instruction in classes at the high school; each semester, a member of the EPP provides feedback to teacher candidates' lesson design and implementation using the Clinical Experience rubric as a guide for the observations. Methods courses are blocked for all education candidates during the fall term of the senior year. In this sequence of courses, teacher candidates work with their student teaching placements as they implement curriculum in small group and whole class formats. Clinical faculty offer feedback to candidates and complete summative assessments. This assessment is used in conjunction with EPP faculty coursework observations to give teacher candidates final approval for student teaching. The Director of Teacher Education and the Field Experience and Assessment Coordinator serve as the EPP's liaisons to the partnership schools at the exploration and synthesis phases. The Director and Field Experience Coordinator consult with local schools to determine specific placements for interns and student teachers. The Director also provides orientation to the candidates, supervisors, and cooperating teachers to define expectations for candidates' performance based on criteria established in collaboration with partner schools. During this student teaching orientation, training on the evaluation tools, including the Danielson Framework, is provided. The Unit Assessment System provides feedback on candidate performance and eligibility at several benchmarks in the education program. Clinical experience evaluations have implications for advancement through checkpoints, and are instrumental in the development of candidates' knowledge, skills, and dispositions. In order to better gather information about clinical experiences, evaluative forms and disposition rubrics are gathered on candidate performances throughout orientation, professional education courses, methods, and student teaching. This system successfully gathers information about individual clinical experiences for checkpoint review as well as for program evaluation of clinical experience components. Clinical experience hours are logged and clinical experience formative and summative evaluations conducted by clinical and supervising faculty are completed on the CORE ELMS program. The EPP's quality assurance system offers teacher candidates opportunities to continuously monitor their progress in the program. Professional education courses focus on constructing knowledge of curriculum and pedagogy in relationship to deepening construction of knowledge of self, students, and schools. Each course in this phase of the program requires candidates to complete a departmental artifact, many of which align with reflections of clinical experiences and case studies investigating pedagogical performances in individual interventions and remediation through small group work. These artifacts have been carefully aligned with the InTASC and CAEP standards; additionally, these artifacts are aligned with standards from the Indiana Office of Educator Licensing and Development that tie with ensuring that all P-12 students learn.

Enrollment and Program Completers

In each of the following categories, provide the total number of individuals enrolled in teacher preparation programs for an initial teaching credential and the subset of individuals enrolled who also completed the program during the academic year.

(§205(a)(1)(C)(ii))

Key terms in this section are listed below.	Click on the link to view t	he definition(s) in
the glossary.

SECTION I: PROGRAM INFORMATION

Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

Academic Major

THIS PAGE INCLUDES:

- >> Teachers Prepared by Subject Area
- >> Teachers Prepared by Academic Major

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2021-22.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. (§205(b)(1)(H))

What are CIP Codes?

No teachers prepared in academic year 2021-22

If your program has no teachers prepared, check the box above and leave the table below blank (or clear responses already entered).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55).

CIP Code	Subject Area	Number Prepared

13.14	Teacher Education - English as a Second Language	
13.99	Education - Other Specify: High Ability	1

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2021-22. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. (§205(b)(1)(H))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education—Chemistry" category.

What are CIP Codes?

Does this teacher preparation provider grant degrees upon completion of its programs?

• Yes

No teachers prepared in academic year 2021-22

If this provider does not grant participants a degree upon completion, or has no teachers prepared, leave the table below blank (or **clear responses already entered**).

CIP Code	Academic Major	Number Prepared

Program Assurances

Respond to the following assurances. Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. (§205(a)(1)(A)(iii); §206(b))

THIS PAGE INCLUDES:		
>>	Program Assurances	

Note: This section is preloa	ded from the prior year's IPRC.
------------------------------	---------------------------------

Program Assurances
Note: This section is preloaded from the prior year's IPRC.
1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach based on past hiring and recruitment trends.
Yes No
2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.
Yes No
3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.
Yes No Program does not prepare special education teachers
4. Prospective general education teachers are prepared to provide instruction to students with disabilities.
Yes No
5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.
• Yes No
6. Prospective general education teachers are prepared to provide instruction to students from low-income families.
Yes No
7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.
• Yes

8. Describe your institution's most successful strategies in meeting the assurances listed above:

All teacher candidates are required to have a variety of clinical field experiences that include children from diverse backgrounds. Despite being a rural institution, the EPP has continued to offer clinical experiences in both urban and rural settings, with children with special needs, high ability, whose first language is not English, and from all socioeconomic classes. Religious diversity is present as well. For example, the EPP has access to Fort Wayne Community Schools, the largest school district in Indiana, offering depth and breadth in diversity. The Field Experience and Assessment Coordinator tracks these field experiences for the EPP using the CORE system. In response to the recent licensure changes in Indiana, the Henney Department of Education at Manchester University has revised the program to include more literacy instruction, methods of teaching English Learners, and contentspecific pedagogy. Additionally, the MU EPP has strengthened the behavior management and conflict resolution requirements for all candidates shifting the focus of to creating culturally responsive classrooms. To stay abreast of the current needs of P-12 schools, the EPP meets twice annually with its Teacher Advisory Council (a group of stakeholders including classroom teachers, administrators, current teacher candidates, clinical supervisors, and members of the EPP) to receive input and guidance as it evaluates the teaching programs. An annual luncheon with administrators and the EPP provides another opportunity for the EPP to collaborate in meaningful partnerships. In addition, our Teacher Education Committee, an institutional standing committee made up of faculty from various departments as well as licensure-track students, meets monthly to discuss the program, trends in education and various issues facing education and teacher candidates. The faculty in the EPP work closely with the Indiana State Teachers Association, CAEP, Indiana Department of Education, Indiana Association for Colleges of Teacher Education, and the Association of Teacher Educators to stay abreast of the needs of schools, current best practices, as well as state and federal legislation impacting K-12 education. Lastly, the faculty requires candidates to participate in professional development in a variety of areas such as trauma-informed teaching, poverty, technology for the classroom, bullying prevention, reading strategies, RTI, differentiation, and others to assist with a variety of topics- all with the goal of meeting these assurances. Through the CAEP accreditation site visit, which occurred in April 2019, the EPP has had additional opportunities to gain feedback on their programs, and continue to improve to meet the students' needs. As a result of the visit, the EPP has developed a scope and sequence for diversity. It is also currently realigning its program, both in curriculum and scope and sequence, to offer more intentional development of teacher candidates who are prepared to teach diverse populations.

Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

(§205(a)(1) (A)(i), §205(a)(1)(A)(ii), §206(a))

Note: Last year's goal and the current year's goal are preloaded from the prior year's IPRC.

Report Progress on Last Year's Goal (2021-22)

1. Did your program prepare teachers in special education in 2021-22?

If no, leave remaining questions for 2021-22 blank (or <u>clear responses already entered</u>).

Yes

No

2. Describe your goal.

The EPP's goal is to prepare at least 6 teachers in special education in 2021-22. We had one graduate in December 2021 who is currently teaching special education. In addition, we have 5 teacher candidates currently student teaching in special education, and are scheduled to graduate in May 2022.

- 3. Did your program meet the goal?
 - Yes

No

4. Description of strategies used to achieve goal, if applicable:

The EPP graduated six teacher candidates prepared in 2021-22 to teach in special education, and will continue working with students to add special education to their license.

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

We have been approved to add the course EDUC 350 Assessment and Implementation of Mild Intervention as part of the required sequence of courses in order to better support and prepare our special education teacher candidates. This requirement went into effect with first year candidates in the fall of

6. Provide any additional comments, exceptions and explanations below:
Review Current Year's Goal (2022-23) 7. Is your program preparing teachers in special education in 2022-23? If no, leave the next question blank. Yes No
8. Describe your goal. The EPP's goal for 2022-23 is to graduate at least seven teacher candidates in special education. The EPP has continued to encourage and support teacher candidates in special education. Adding a faculty member with practical and academic experience in special education will offer an elevated level of support.
Set Next Year's Goal (2023-24) 9. Will your program prepare teachers in special education in 2023-24? If no, leave the next question blank. • Yes • No 10. Describe your goal. The EPP's goal for 2022-23 is to graduate at least nine teacher candidates in special education. The EPP has continued to encourage and support teacher candidates in special education.

2023. The EPP will track scores on the Praxis II content exam for trends regarding the impact of this addition.

SECTION II: ANNUAL GOALS

Annual Goals: Instruction of Limited English Proficient Students

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

(§205(a)(1) (A)(i), §205(a)(1)(A)(ii), §206(a))

Note: Last year's goal and the current year's goal are preloaded from the prior year's IPRC.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

Quantifiable Goals

THIS PAGE INCLUDES:

- >> Review Current Year's Goal (2022-23)
- >> Set Next Year's Goal (2023-24)

Report Progress on	Last Year's	Goal (202)	1-22)
--------------------	-------------	--------------------	-------

1. Did your program prepare teachers in instruction of limited English proficient students in 2021-22?

If no, leave remaining questions for 2021-22 blank (or <u>clear responses already entered</u>).

Yes

No

- 2. Describe your goal.
- 3. Did your program meet the goal?

Yes

No

- 4. Description of strategies used to achieve goal, if applicable:
- 5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:
- 6. Provide any additional comments, exceptions and explanations below:

Review Current Year's Goal (2022-23)

Yes No

8. Describe your goal.

Set Next Year's Goal (2023-24)

9. Will your program prepare teachers in instruction of limited English proficient students in 2023-24? If no, leave the next question blank.

Yes

No

10. Describe your goal.

Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. (§205(a)(1)(B))

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

TH	IIS PAGE INCLUDES:
>>	Use of Technology

Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. (§205(a)(1)(F))

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction
 - Yes
- b. use technology effectively to collect data to improve teaching and learning
 - Yes
- c. use technology effectively to manage data to improve teaching and learning
 - Yes
- d. use technology effectively to analyze data to improve teaching and learning
 - Yes
- 2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

Across the education classes, the integration of technology is modeled and expected. In the special education courses, various forms of assistive technology are explored and teaching candidates are introduced to the online IEP software used by the state of Indiana. This assures preparation of teachers not only for the use of technology, but for its use pertaining to universal design for learning applications, too. In addition, the EPP possesses a SMART interactive whiteboard in one of our education-designated classrooms and faculty frequently demonstrate 1:1 with the elementary education candidates. Faculty and candidates are learning to use the technology. All candidates are expected to integrate technology into lesson plans as appropriate for maximum engagement of their students. During the junior literacy course required of all majors, teacher candidates are required to modify one lesson plan in their unit as an e-learning lesson. Additionally, all teacher candidates take Educational Psychology where they examine assessment data available to teachers and use statistical knowledge necessary to understand, analyze, and use that data for the purpose of planning future instruction. Typically, each fall, the EPP hosts a Technology Summit which requires attendance for sophomores, juniors and seniors to attend (optional for first years). This summit consists of a technology expert to spend a half-day with elementary, secondary and all grade majors teaching them different ways to integrate and use technology in the classroom. When a formal summit is not offered, mini-workshops provide hands-on experience in integrating technology into the classroom. In addition, faculty often integrate some of these ideas into their own courses so students become more familiar and comfortable using different technology. In addition, CAEP accreditation feedback during April 2019, as well as continued trends showing lower scores on integration of technology on the Danielson model for student teachers, has influenced the direction of t

in the classroom. This course was piloted in the fall of 2021, with the Instructional Design Specialist teaching the course. Additionally, he is supporting the EPP in a scope and sequence of integrating the practice and mastery of integrating technology into the classroom throughout courses. With the implementation of the EPP's new program for incoming first years in the fall of 2022, this is a required course for all education majors. Most of the field experience placements are 1:1 or have a wide variety of technology infused in instruction. Since most school corporations are also turning to e-learning, we are exploring ways to integrate this pedagogy and curriculum design into the EPP's courses. The EPP requires an e-learning lesson as part of the unit plan. The recent Covid-19 pandemic has certainly brought to light the need for preparation in remote learning. The EPP is taking steps to provide students with deeper knowledge and experience in integrating technology effectively.

SECTION VI: TEACHER TRAINING

Teacher Training

Provide the following information about your teacher preparation program.

(§205(a)(1)(G))

Note: This section is preloaded from the prior year's IPRC.

THIS	PΑ	GEI	INCL	חוו	F.S

>> Teacher Training

Teacher Training

- 1. Provide a description of the activities that prepare general education teachers to:
 - a. Teach students with disabilities effectively

The EPP requires all teaching candidates to take the foundational course in special education (EDUC 112, Exceptional Learners). As they develop curriculum throughout their teaching programs, they must adapt individual lessons to meet the needs of exceptional learners. Teaching candidates are evaluated in clinical experiences and student teaching on their ability to differentiate instruction. Student teachers must implement adaptations throughout their placements.

Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the Individuals with Disabilities
 Education Act.

This is an area the EPP recognizes as an area for improvement. Currently, only the teaching candidates graduating with full experience on participating on an IEP team meeting are those on the special education licensure track. Many of the general education student teachers have opportunities to participate on team meetings during their student teaching experience. However, due to school corporations' policies and interpretation of the federal law regarding team members and confidentiality, this is not a consistent or planned opportunity. The EPP is exploring training provided through videos or a virtual platform.

c. Effectively teach students who are limited English proficient.

The EPP requires all teaching candidates regardless of licensure areas to complete a course in teaching literacy to students with limited English proficiency. This course requires teaching candidates to teach a lesson adapted to accommodate K-12 students with limited English proficiency. The redesigned teaching programs, implemented in the fall of 2022, requires an additional course for all education majors. This course, ENG/MODL 350: Teaching English to Speakers of Other Languages, will deepen understanding in meeting the needs of a diverse population. The new program also includes intentional clinical experiences through urban placements, offering opportunities to work side-by-side with diverse populations.

- 2. Does your program prepare special education teachers?
 - Ye
 - No

If yes, provide a description of the activities that prepare special education teachers to:

a. Teach students with disabilities effectively

The sequence of courses taken by special education teachers requires them to participate in the development of an IEP, collaborate with special education clinical faculty, and complete half of their student teaching experience in a special education placement. They must also pass their mild intervention (special education) Praxis II content exam prior to earning permission to student teach; this indicates a depth of understanding required of special education teachers. In the fall of 2022, in order to better meet the standards set by the Council of Exceptional Children and to meet the needs of stakeholders, the EPP requires an additional course of all special education teaching candidates.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

The sequence of courses taken by special education teachers requires them to participate in the development of an IEP, collaborate with special education clinical faculty, and complete half of their student teaching experience in a special education placement which provides them with an opportunity to sit on the team responsible for developing IEPs. They must also pass their mild intervention (special education) Praxis II content exam prior to earning permission to student teach; this indicates a depth of understanding required of special education teachers, including the development of IEPs and collaborating with other professionals and parents. This ability is documented on the Danielson framework used by the EPP.

c. Effectively teach students who are limited English proficient.

The EPP requires all teaching candidates regardless of licensure areas to complete a course in teaching literacy to students with limited English proficiency. This course requires teaching candidates to teach a lesson adapted to accommodate K-12 students with limited English proficiency. The redesigned teaching programs, implemented in the fall of 2022, requires an additional course for all education majors. This course, ENG 350: Teaching English to Speakers of Other Languages, will deepen understanding in meeting the needs of a diverse population. The new program also includes intentional clinical experiences through urban placements, offering opportunities to work side-by-side with diverse populations.

Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

Manchester University historically has had a high rate of graduation into appropriate employment or graduate school acceptance. 100% of our 2021-2022 graduates were hired in their field of choice or in graduate school within six months of graduating. Some were hired on emergency permits to teach outside the scope of their original license, in order to meet the needs of the school corporation they desired to work.
