AHMED'S GOODBYE

*Ahmed Abdelmageed, Pharm.D.,
Assistant Dean of Student, Alumni and Community Engagement*

As you may know, this summer I will be assuming a new role as assistant dean of student, alumni and community engagement and transition out of experiential education. It's a bitter sweet moment in my professional career to say goodbye, after 10 years, to a field I am passionate about. However, I leave it with many great memories and a great deal of excitement to create more in my new role.

What I cherish most from my time leading the Office of Experiential Education at Manchester are the relationships I have gotten to develop with all of you. Your

dedication to our profession, your passion to inspire others and your patience as you guide our future colleagues are all awe-inspiring to say the least. I transition into my new role with many invaluable experiences that I know will serve me well and I owe a big thanks to all of you for being great company on this journey. It has truly been a pleasure to work with such a dedicated group of pharmacy professionals.

You are an integral part of our Manchester community and your contribution to our success is immeasurable.

I appreciate you.

SPARTAN SPOTLIGHT**Sarah Gordon**

Sarah Gordon joined Manchester University's Pharmacy Program in July 2013 after completing her PGY-1 Residency at Columbus Regional Hospital (now Columbus Regional Health). She is a graduate of Lake Erie College of Osteopathic Medicine (LECOM) School of Pharmacy. Her practice site is at Dupont Hospital where she specializes in internal medicine, and

she serves as the interprofessional education (IPE) coordinator for the Pharmacy Program. When not at work, Sarah enjoys spending time with her husband (Frank), 6-month old daughter (Emma) and basset hound (Linus). She is an avid sports fan (Ohio State, all Cleveland sports teams and the Pittsburgh Penguins) and enjoys running and biking. A unique fact about Sarah is during her tenure as a cheerleader for the University of Toledo, she broke both of her hands at the same time and now has 13 screws holding them together.
