

Featured Course Sequences

BUSINESS AND ACCOUNTING

- **ACCT 211 Principles of Accounting (3 cr) – MWF 12:30 – 1:20**
Students examine the principles of an integrated accounting system including both financial and managerial accounting. Emphasis is placed on introducing the financial statements and using accounting information. Topics include cost-volume-profit analysis, budgeting, accounting cycle, cash and working capital. Fall. January. Spring.
- **ACCT 212 Principles of Accounting II (3 cr) – TR 11 – 12:15; MWF 9:30 – 10:45**
Students continue the examination of the principles of an integrated accounting system including both financial and managerial accounting. Emphasis is placed on interpreting financial statements and using accounting information for decision making. Topics include receivables, inventory, long-term assets, liabilities and product costing. Prerequisite: ACCT 211. Fall. January. Spring.
- **BUS 209 Introduction to Professional Sales (3 cr) – MW 9:30 – 10:45**
Students explore the role of the selling function in the marketing mix. Topics include personal selling theory and practice, business-to-business theory and practice, and an introduction to managing the sales force and designing sales territories.

EDUCATION

- **EDUC 111 Exploring Teaching and Learning (3 cr) – TRF 9 – 9:50**
The first course taken by all education students seeking the baccalaureate degree. Introduces prospective education majors to the education programs at Manchester University, current issues in P-12 education, educational philosophy and challenges facing the teaching profession. Content includes professional development, decision-making, effective teaching, family involvement, culture of and in schools, professional standards, collaboration and teachers as lifelong learners. A field trip and attendance at a school board meeting are required. Fall. Spring.

EXERCISE SCIENCE AND ATHLETIC TRAINING

- **ESAT 103 Foundations of Health, Physical Education and Sports Sciences (2 credits) – TR 9 – 9:50**
An introduction to the historical, philosophical, sociological and psychological foundations that provide the framework for diverse career opportunities as health professionals, fitness specialists, physical education teachers, therapists and sport personnel.
- **ESAT 106 Medical Terminology for Allied Health (1 credit) – Online**
Self-paced instruction in the essentials of medical terminology including word roots, suffixes, prefixes, terms of anatomical orientation, commonly-used abbreviations and medical specialty nomenclature.

- **ESAT 115 A Prevention and Emergency Care (3 cr) – TRF 8 – 8:50**
A survey of strategies for the prevention of injury and illness and emergency management of common injuries. Hands on experience with prophylactic taping, padding and bracing techniques, protective equipment, universal precautions, disease transmission, environmental threats to safety, Cardiopulmonary resuscitation (CPR), automatic external defibrillators and spine boarding assessment and treatment.
- **ESAT 145 Motor Development (3 credits) (fall)**
A study of the progressive change in movement behavior throughout life from infancy through older adulthood. Emphasis is placed upon developing the ability to identify the stages in a variety of motor skills. Attention will also be given to the study of physical growth patterns and biological maturity and the relationship of each to motor performance.
- **ESAT 243 A Principles of Fitness (3 cr) – MW 9:30 – 10:20**
A lecture/laboratory course which investigates basic principles of safe and effective exercise prescription for all age levels. Students will identify strengths and weaknesses of existing fitness testing programs and will field test selected programs with appropriate age groups including self-testing. Students design suitable exercise programs based on test results.
- **ESAT 264 A Health Promotion (2 cr) – WF 12:30 – 1:20**
An investigation of the health content knowledge in communicable and chronic diseases; consumer and community safety; environmental health; family living; and injury prevention and safety. The course will provide a foundation for the promotion of health-enhancing behaviors and disease prevention for health professionals, including athletic trainers, fitness specialists, teachers and therapists.

PSYCHOLOGY

- **PSYC 110 Intro to Psychology (4 cr) – MW 9:30 – 10:45; TR 12:30 – 1:45; Online**
 - **Lab required: Online**
An introduction to the scientific study of behavior and mental life which includes an overview of the biological, social and cultural influences on behavior. In addition to three hours of lecture meetings per week, all students will participate in a field experience that provides hands-on exposure to course content. C-4HY. Fall, Spring.
- **PSYC 200-level courses coming spring of 2023**

SOCIOLOGY AND CRIMINOLOGY

- **SOC 101 Introduction to Sociology (3 cr) – MWF 2:30 – 3:20**
Sociology as a way of knowing and a body of knowledge. Special attention to socialization, inequality in American society and the institutions of family, religion, politics and economy. C4HS. Fall. Spring.

- **CRIM 110 (3 cr) – TRF 10 – 10:50**
An introductory course designed to provide students with an understanding of crime, law, and the criminal justice system in the United States. This course explores the underlying justifications for, and latent effects of, the criminal justice system. Topics include factors driving the actions of structural elements of the system (e.g. policing, courts, corrections) as well as individual actors within the system (e.g. judges, jurors, prosecutors). Spring.
- **SOWK 110 Intro to Social Work (3 cr) – MWF 12:30 – 1:20**
Introduction to the helping professions, with particular emphasis on the nature of generalist social work. Content includes professional values and ethics, social problems and inequities, populations-at-risk and social service delivery philosophies and settings. Social work perspectives, including systems models, strengths perspective, social and economic justice, person-in-environment and evidence-based practice are highlighted. C-3RC. Fall. Spring.

SPANISH

- **SPAN 201 Communication and Culture (3 cr) (fall)**
Exploration of cultural currents and effective communication of ideas in order to broaden and solidify language and intercultural skills. Course features conversation oriented toward cultural competence, study of brief literary works, film, and other texts and language laboratory work geared toward improved proficiency. Class is conducted primarily in Spanish. Prerequisite: Placement via examination in Spanish. C-3GC.
- **SPAN 202 Cultures and Controversies (3 cr) – TRF 9 – 10:20**
 - **Lab required: R 6:30 – 7:20**
Development of skills in the expression of convictions regarding cultural controversies in areas such as science, technology, media, politics, social culture, etc. in order to strengthen language and intercultural skills. The class emphasizes effective communication in Spanish to articulate ideas and beliefs about identity, current events, and cultural values. Class is conducted primarily in Spanish. Prerequisite: Placement via examination in Spanish. C-3GC.
- **SPAN 301 Oral Communication (3 cr) (fall)**
Intensive practice in spoken expression via discussion of written texts, art, films, and contemporary issues. Course work is oriented toward improvement of students' oral proficiency through presentation, class-wide discussion, and individualized assessment. Course taught in Spanish. Course may be taken twice for credit under different syllabi.
- **SPAN 302 Ideas and Culture (3 cr) – TRF 10 – 10:50**
Practice of oral and written communication in formal and informal settings using the Spanish language. Students will discuss and analyze several cultural topics through the use of authentic Spanish-language sources for class discussions, research, debate and oral presentations. Course taught in Spanish. Course may be taken up to two times for credit under different syllabi. C-3GC.
