

## Q2 HEERF II

Student Manchester University acknowledges that we signed and returned to the Department the Certification and Agreement and the assurance that the institution has used the applicable amount of funds designated under the CRRSAA and ARP (a)(1) and (a)(4) programs to provide Emergency Financial Aid Grants to Students.

We received \$755,726 from the Department pursuant to the institution's Certification and Agreement for Emergency Financial Aid Grants to Students under the CRRSAA program.

The total amount of Emergency Financial Aid Grants distributed to students under the CRRSAA program is \$245,501.

With these funds we had 1,302 total number of students at the institution that are eligible to receive Emergency Financial Aid Grants to Students under the CRRSAA programs.

**1,296 total** number of students have received an Emergency Financial Aid Grant to students under the CRRSAA program.

We used a two-pronged approach to determine which students receive Emergency Financial Aid Grants and how much they would receive under the CRRSAA program. To determine exemplary need, all eligible undergraduate students were assigned points based on their financial circumstances. The more points the larger grant amount they received. We also did an application process for graduate students in need of more emergency funding.

Students had the opportunity to explain their expenses as a result of the pandemic and we fulfilled grants based on greatest need. Students were provided the below email on March 24, 2021 and April 1, 2021 concerning emergency financial aid grants provided by CRRSAA.

Dear Student,

This is an important email regarding federal pandemic relief aid to students. Because you are receiving additional aid, I encourage you to read this email carefully. In December, Congress passed the Coronavirus Response and Relief Supplemental Appropriations Act. CRRSAA, for short, authorizes the Higher Education Emergency Relief Fund II (HEERF II), which, among other things, appropriates federal funds to help individual college and university students. Manchester is required to allocate these funds according to federal government guidelines. The amount each student receives has been determined by need as identified through the financial aid process. Based on this information, you are eligible to receive \$1000000. You do not need to apply for these HEERF II grants and you do not need to repay them. In order to receive your HEERF II grant as soon as possible, please complete the Federal HEERF II Grant Disbursement Form to elect how you would like to receive these funds. If you have not completed this form by April 30, funds will automatically be distributed through eRefund or by printed check. Those of you who attended Manchester last year may recall that with the first pandemic relief bill, the CARES Act, the University allowed students to apply for additional emergency funds. That opportunity is not available with this round of HEERF II grants. We have provided Frequently Asked Questions to help answer additional questions you may have. Please find that [HERE](#). If you still have questions, please contact [health@manchester.edu](mailto:health@manchester.edu).

Dear Students,

This is an important email regarding federal pandemic relief aid to students. Because you are receiving additional aid, I encourage you to read this email carefully. In December, Congress passed the Coronavirus Response and Relief Supplemental Appropriations Act. CRRSAA, for short, authorizes the Higher Education Emergency Relief Fund II (HEERF II), which, among other things, appropriates federal funds to help individual college and university students. Manchester is required to allocate these funds according to federal government guidelines. Eligible MS PGx, MAT, and PharmD students will receive \$250. You do not need to apply for these HEERF II grants and you do not need to repay them. Funds are not available to international, DACA, or undocumented students per guidelines passed by Congress. This is not at the discretion of Manchester University. Those of you who attended Manchester last year may recall that with the first pandemic relief bill, the CARES Act, the University allowed students to apply for additional emergency funds. That opportunity is available to MAT, PGx, and Pharmacy students with this round of HEERF II grants. Any additional funds approved will be disbursed with the \$250 dollars at one time. Please use this link to be taken to the HEERF II Additional Funds application. Once this form is completed and submitted, we will begin reviewing applications at the close of the application window, Friday April 9th. Following the review of your application, you will receive an email detailing the amount of grant funds you have been approved to receive. This email will request you to fill out the HEERF II Distribution form electing how you wish to receive these funds. If you have additional questions, please email Dr. Jen Campbell ([jahenriksen@manchester.edu](mailto:jahenriksen@manchester.edu)) and Ms. Elena Bohlander ([embohlander@manchester.edu](mailto:embohlander@manchester.edu)).

We have provided Frequently Asked Questions to help answer additional questions you may have. Please find that [HERE](#). If you still have questions, please contact [health@manchester.edu](mailto:health@manchester.edu).
