Supervised Clinical Experience

Note: The clinical experience requirements in this section are preloaded from the prior year's IPRC. Teacher preparation providers will enter the number of participants each year.

Provide the following information about supervised clinical experience in 2019-20. ([§205\(a\)\(1\)\(C\)\(iii\)](#), [§205\(a\)\(1\)\(C\)\(iv\)](#))

Are there programs with student teaching models?

- Yes
 No

If yes, provide the next two responses. If no, leave them blank.

Programs with student teaching models (most traditional programs)

Number of clock hours of supervised clinical experience required prior to student teaching

Number of clock hours required for student teaching

Are there programs in which candidates are the teacher of record?

- Yes
 No

If yes, provide the next two responses. If no, leave them blank.

Programs in which candidates are the teacher of record in a classroom during the program (many alternative programs)

Number of clock hours of supervised clinical experience required prior to teaching as the teacher of record in a classroom	60
Years required of teaching as the teacher of record in a classroom	1

All Programs	
Number of full-time equivalent faculty supervising clinical experience during this academic year (IHE staff) Optional tool for automatically calculating full-time equivalent faculty in the system	0
Number of adjunct faculty supervising clinical experience during this academic year (IHE staff)	1
Number of cooperating teachers/K-12 staff supervising clinical experience during this academic year	0
Number of students in supervised clinical experience during this academic year	1

Please provide any additional information about or descriptions of the supervised clinical experiences:

Candidates consider issues from multiple perspectives and utilize instructional strategies to meet the needs of a diverse student population. The collaboration between classroom teacher and candidate also provides more opportunity for individual and small group instruction, continuous assessment of student learning, and individualization of instruction to meet students' needs. Accountability for clinical practice occurs at all three phases of the Teacher Education Program. However, at the student teaching level (synthesis phase), candidates demonstrate their content pedagogical and professional knowledge.

Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

- >> [Teachers Prepared by Academic Major](#)

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2019-20.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

What are CIP Codes?

No teachers prepared in academic year 2019-20

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2019-20. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

Program Assurances

THIS PAGE INCLUDES:

>> [Program Assurances](#)

Respond to the following assurances. Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. ([§205\(a\)\(1\)\(A\)\(iii\)](#); [§206\(b\)](#))

Program Assurances

Note: This section is preloaded from the prior year's IPRC.

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

- Yes
 No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

- Yes
 No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

- Yes
 No
 Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

- Yes
 No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

- Yes
 No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

- Yes
 No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

- Yes
 No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

All of our candidates are required to have a variety of field experiences, even when the program has many fewer courses than the traditional program. These experiences are both urban and rural, with children with special needs and high ability, with children whose first language is not English, and from all socioeconomic classes. Religious diversity is present as well. In addition, students attend and plan Arc events, working with adults with special needs. These experiences are tracked by the education department. Additionally, we meet twice a year with our community stakeholders to receive input and guidance as we refine our program to meet the needs of our communities and the learners in the area. The faculty in our unit works closely with the Indiana State Teachers Association, CAEP, Indiana Department of Education, Indiana Association for Colleges of Teacher Education, and the Association of Teacher Educators to stay abreast of what is current and needed in schools. Lastly, the faculty requires candidates to participate in

professional development in a variety of areas such as technology for the classroom, bullying prevention, reading strategies, RTI, differentiation, and others to assist with the goal of meeting these assurances in all of our teacher candidates.

Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. **(§205(a)(1)(B))**

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

On this page, review the questions regarding your program's use of technology, and update as needed.

Note: This section is preloaded from the prior year's IPRC.

Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. ([§205\(a\)\(1\)\(F\)](#))

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction

 Yes

 No

- b. use technology effectively to collect data to improve teaching and learning

 Yes

 No

- c. use technology effectively to manage data to improve teaching and learning

 Yes

 No

- d. use technology effectively to analyze data to improve teaching and learning

 Yes

 No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

Across the education classes, the integration of technology is modeled and expected. In the special education courses, various forms of assistive technology are explored. This assures preparation of teachers not only for the use of technology, but for its use pertaining to universal design for learning applications, too. In addition, we have a SMART interactive whiteboard in one of our education-designated classrooms and faculty frequently demonstrate 1:1 with the elementary education candidates. Faculty and candidates are learning to use the technology. All candidates are expected to integrate technology into lesson plans as appropriate for maximum engagement of their students. During the literacy course required of all majors, teacher candidates are required to modify one lesson plan in their unit as an e-learning lesson. All teacher candidates take Educational Psychology where they examine assessment data available to teachers and use statistical knowledge necessary to understand, analyze, and use that data for the purpose of planning future instruction. Additionally, each fall, the Unit hosts a Technology Summit which requires attendance for sophomores, juniors and seniors to attend (optional for first years and T2T). This summit consists of a technology expert to spend a half-day with elementary, secondary and all grade majors teaching them different ways to integrate and use technology in the classroom. In addition, faculty often integrate some of these ideas into their own courses so students become more familiar and comfortable using different technology. In addition, CAEP accreditation feedback during April 2019 has influenced the direction of the EPP's program revisions. In its proposal, a new stand-alone educational technology course will be offered. The Instructional Design Specialist, a former P-12 classroom teacher, will teach the course; additionally, he is supporting the EPP in a scope and sequence of integrating the practice and mastery of integrating technology into the classroom throughout courses. With the implementation of the new program in the fall of 2022, all teaching candidates will begin taking this required course. Finally, most of the field experience placements are 1:1 or have a wide

variety of technology infused in instruction. Since most school corporations are also turning to e-learning, we are exploring ways to integrate this pedagogy and curriculum design into the EPP's courses. The EPP requires an e-learning lesson as part of the unit plan. The recent Covid-19 pandemic has certainly brought to light the need for preparation in remote learning. The student teachers completing their clinical experience last spring have had an immersive experience in e-learning. The EPP is taking steps to provide students with deeper knowledge and experience in integrating technology effectively.

Teacher Training

THIS PAGE INCLUDES:

>> [Teacher Training](#)

Provide the following information about your teacher preparation program.

(§205(a)(1)(G))

Note: This section is preloaded from the prior year's IPRC.

Teacher Training

1. Provide a description of the activities that prepare general education teachers to:

a. Teach students with disabilities effectively

The EPP requires all teaching candidates to take the foundational course in special education (EDUC 212, Foundations of Exceptional Learners). As they develop curriculum throughout their teaching programs, they must adapt individual lessons to meet the needs of exceptional learners. Teaching candidates are evaluated in field experiences and student teaching on their ability to differentiate instruction. Student teachers must implement adaptations throughout their placements.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

This is an area the EPP recognizes as an area for improvement. Currently, only the teaching candidates graduating with full experience on participating on an IEP team meeting are those on the special education licensure track. Many of the general education student teachers have opportunities to participate on team meetings during their student teaching experience. However, due to school corporations' policies and interpretation of the federal law regarding team members and confidentiality, this is not a consistent or planned opportunity. The EPP is exploring training provided through videos or a virtual platform.

c. Effectively teach students who are limited English proficient.

The EPP requires all teaching candidates regardless of licensure areas to complete a course in teaching literacy to students with limited English proficiency. This course requires teaching candidates to teach a lesson adapted to accommodate K-12 students with limited English proficiency. The redesigned teaching programs, to be implemented in the fall of 2021, will require an additional course for all education majors. This course, ENG 350: Teaching English to Speakers of Other Languages, will deepen understanding in meeting the needs of a diverse population. The new program will also include intentional field experiences through urban placements, offering opportunities to work side-by-side with diverse populations.

2. Does your program prepare special education teachers?

- Yes
 No

If yes, provide a description of the activities that prepare *special education teachers* to:

a. Teach students with disabilities effectively

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

c. Effectively teach students who are limited English proficient.
